## Chapter I PRELIMINARY PROVISIONS

### BMX Freestyle Competitions

**6bis.1.001** BMX Freestyle Competitions are judged events, in which riders are scored based upon their skill at executing a routine, including one or more of a variety of different manoeuvres, that are known as “tricks”.

Within the context of these regulations, BMX Freestyle Competitions or Events shall refer to either or both of two different BMX Freestyle specialities:

- Park
- Flatland

These regulations apply in general to both BMX Freestyle specialties, except where specifically noted otherwise.

(text modified on: 01.02.18)

**6bis.1.002** As BMX Freestyle Competitions are not races, only those elements of Part I of the UCI Regulations, “General Organisation of Cycling as a Sport” that are specifically mentioned in Part VI bis “BMX Freestyle Competitions” shall apply to BMX Freestyle Competitions.

In case the words “race” or “races” are used in any other parts of the UCI Regulations that also apply to BMX Freestyle Competitions, these words shall be taken to mean a BMX Freestyle Competition or Competitions. Likewise, the words Competition and event can be used interchangeably.

**6bis.1.003** The season for BMX Freestyle shall begin on 1<sup>st</sup> January and end on 31<sup>st</sup> December.

## Chapter II CATEGORIES AND LICENSES

### Age of Participants

**6bis.2.001** For participation in events on the international calendar, rider categories are determined by the age of those competing. A rider’s age is defined by the difference between the year of the event and the year of birth of the rider, as defined in article 1.1.034.

A rider must be at least 7 years of age to compete in a BMX Freestyle Competition. The minimum age of 7 refers to the real calendar age on the day of event commencement.

### Competition Categories

**6bis.2.002** Two levels of categories are defined for BMX Freestyle Competitions.

A UCI Categories: These categories shall be held at all events registered on the UCI BMX Freestyle International Calendar.

B National Categories: These categories shall be held at all competitions registered on a BMX Freestyle national calendar.

The Competition categories recognized by the UCI for BMX Freestyle Competitions are as follows:

- a. UCI Categories for BMX Freestyle Competitions:
  - i Categories for Men: Men Elite, aged 15 and over
  - ii Categories for Women: Women Elite, aged 15 and over
- b. National Categories for BMX Freestyle Competitions:
  - i Categories for Men:
    - I Amateur Men
    - II Youth Men, aged 7 - 14
  - ii Categories for Women:
    - I Amateur Women
    - II Youth Women, aged 7 - 14

For the National Categories listed above, National Federations may decide to change the age limits or add additional categories such as other age categories, open categories\*, and / or ability categories.

\*Open categories are those with specific age or ability limits as defined by the National Federation.

(text modified on: 01.02.18)

**6bis.2.003** A rider cannot participate in both the Amateur and Elite categories during the same season. Riders may only change their category on the occasion of renewing their license at the start of the next season.

#### Combination of Categories

**6bis.2.004** Park Competitions

A BMX Park Competition can only be held for categories in which 5 or more riders have completed the registration and riders' confirmation process. In case a category has less than 5 riders registered and confirmed, that category may be combined with a different category at the discretion of the Competition organiser.

If adequate numbers of five riders are registered and confirmed during the riders confirmation, the category will be run even if less riders show up at the start, for whatever reason.

#### Flatland Competitions

For BMX Flatland Competitions, the process above for BMX Park Competitions shall be followed, however the minimum number of riders needed to hold a separate competition for the category shall be 3 riders registered and confirmed following riders' confirmation.

(text modified on: 01.02.18)

Licences

**6bis.2.005** Everyone participating in BMX Freestyle Competitions, in whatever capacity, must have a license. In this regard, articles 1.1.001 – 1.1.034 and 1.1.040 – 1.1.087 shall apply.

The licence must indicate the category of the rider.

(text modified on: 02.02.19; 11.02.20)

## **Chapter III CALENDAR AND THE ORGANISATION OF BMX FREESTYLE EVENTS**

**6bis.3.004** The organisation of a BMX Freestyle Competition may decide to limit the number of entries in any category, but only if this limit is announced in the Competition Guide for the Competition. Otherwise, the organiser can not refuse the entry of any license-holder, without prejudice to the provisions set down in article 1.2.022. Without prejudice to the relevant legal and administrative provisions and the general duty of care, the organiser shall ensure that the Field Of Play or the Competition grounds include no places or situations that could constitute a particular safety risk to anyone (riders, attendants, officials, spectators, etc.).

**6bis.3.006** In no case can the UCI or its National Federations be held responsible for defects in the FOP or installations or for any accidents that may occur. This responsibility lies with the organiser.

**6bis.3.007** Riders shall study the FOP / Competition facilities in advance as defined in Chapter VI of these regulations.

## Registration and Riders' Confirmation

**6bis.3.014** The registration process is controlled by the organiser and is described in the Competition Guide.

Riders shall enter BMX Freestyle Competitions by completing the entry process required by the organiser. This may be done in person at the event (at the time and place specified in the Competition Guide) or on-line. The organiser may decide to only accept on-line entries; if so, this will also be announced in the Competition Guide.

In the event that a field limit is in place as defined in the Competition Guide, priority will be given to online registrations. In this way, on-site registration will be allowed only within the limits of the available places (if any).

The organiser may decide to charge an entry fee; if so, this fee must be paid at the time of registration at the latest.

Entry in the Competition implies agreement with the competition schedule and all provisions of the Competition Guide.

Participants under the age of majority in the country in which the Competition is held must provide parental consent when they register using the form provided by the organisation.

As a consequence of registration, the rider (or their parent or guardian) attests that they are medically fit to participate in the Competition. Neither the organiser nor the UCI shall have any duty of care in this regard – determination of fitness to compete is the sole responsibility of the rider (or their parent or guardian).

## Riders Confirmation

**6bis.3.015** Riders confirmation is the process done under the responsibility of a Commissaire, by which entered riders complete the registration process. The Commissaire shall have the exclusive authority to decide whether a rider's entry is valid or not.

Riders confirmation is done at the times and place described in the Competition Guide.

During riders' confirmation, each rider or their representative must attend to verify their intention to start in the Competition.

Only after paying the entry fee (if any), signing any waiver required by the organisation, and completing riders' confirmation is a rider considered to be fully registered for the Competition. At this point, the rider is then given their accreditation allowing them to participate.

Riders must be completely registered before beginning their first practice; they are not allowed in the Competition venue until they are completely registered.

As a condition of registering in the Competition, all riders accept and agree to follow the UCI Regulations and likewise accept the layout and form of the field of play on which the Competition will be held.

(text modified on: 01.02.18)

**6bis.3.017** No further entries shall be accepted following the end of riders' confirmation. Likewise, any riders who entered but did not attend riders' confirmation, shall be removed from the list of entries and not allowed to start.

A rider whose licence could not be verified and whose status as a non-suspended licence holder cannot be established in any other manner may not start and may not figure in the classification of the Competition.

**6bis.3.018** Following the end of riders' confirmation, the Commissaire and the organisation shall draw up the start lists and practice groups (if any) for the Competition.

#### Classification and Results

**6bis.6.001** Within BMX Freestyle Competitions, riders perform timed routines, and are scored based upon various factors, including the difficulty and quality of execution of their run.

(text modified on: 01.02.18)

Competition Format

**6bis.6.002** Riders registered to compete in a Competition will be classified and entered into every BMX Freestyle Competition according to their age, gender, and Competition level as described above in article 6bis.2.002.

**6bis.6.003** A BMX Freestyle Competition for each category may be composed of the phases (Qualification, Semi-final or Final) described below, and within each phase, a number of heats.

For Park Competitions, a heat is a group which comprises 4-6 riders. In the case of 7 entries, the heat will consist of 7 riders.

For Flatland Competitions, riders are organised into heats at the discretion of the organiser, Periodic breaks may be inserted into the program in order to allow for rider rest and warm-up.

The combination of phases and heats (if applicable) for a category depends on the number of entries, and is found in the following table.

Park Competitions

Number of entries	Competition phases	Qualification rule	Number of heats
5 - 8 entries	2 phases: Qualification x 1 Final x 1	Top 4 in Qualification advance to Final	Qualification: as below  1 heat of 4 in Final
9 – 15 entries	2 phases: Qualification x 1 Final x 1	Top 8 in Qualification advance to Final	Qualification: as below  2 heats of 4 in Final
16 - 31 entries	2 phases: Qualification x 1 Final x 1	Top 12 in Qualification advance to Final	Qualification: as below  2 heats of 6 in Final
More than 31 entries	3 phases: Qualification x 1 Semi-final x 1 Final x 1	Top 24 in Qualification advance to Semi-final  Top 12 in Semi-final advance to Final	Qualification: as below  4 heats of 6 in Semi- final  2 heats of 6 in Final

**Number of heats:** The number of heats in each round is found in the table above. For the Qualification phase, the number of heats should be chosen such that as many heats as possible have 4-6 riders.

Whenever it is not possible for all heats to have 6 riders, a number of heats will have either 4, 5 or 6 riders according to the table in annexe II. By preference,

heats should be formed with the highest number of riders possible. Any heats that do not have 6 riders, will be at the start of the heat order.

### Flatland Competitions

Number of entries	Competition phases	Qualification rule
3 - 4 entries	1 phase: Final x 1	All entered riders participate in the Final
5 - 8 entries	2 phases: Qualification x 1 Final x 1	Top 4 in Qualification advance to Final
9 – 15 entries	2 phases: Qualification x 1 Final x 1	Top 8 in Qualification advance to Final
16 - 21 entries	3 phases: Qualification x 1 Semi-final x 1 Final x 1	Top 12 in Qualification advance to Semi-final  Top 8 in Semi-final advance to Final
More than 21 entries	3 phases: Qualification x 1 Semi-final x 1 Final x 1	Top 16 in Qualification advance to Semi-final  Top 8 in Semi-final advance to Final

(text modified on: 01.02.18, 02.02.19; 11.02.20; 08.02.21)

**6bis.6.004** A run is the individual unit of Competition in a BMX Freestyle Event, during which a rider performs a routine consisting of various tricks, which is evaluated by the judges.

### Park Competitions

At all phases of the Competition, within each heat, each rider shall do 2 runs.

In general, riders do their first run in the start order defined in article 6bis.6.005. Once the final rider in the order within each heat has taken their first run, the riders will do their second run in the same order.

### Flatland Competitions

At all phases of the Competition, within each heat, each rider shall do 1 run; this run shall be done by the riders in the start order defined in article 6bis.6.005.

(text modified on: 01.02.18)

Start Order

**6bis.6.005** Qualification Phase

Park Competitions

Within the Qualification phase, riders are randomly assigned to each heat.

However, in case an event that is part of a series, the Qualification phase shall instead be done in reverse order of the current series ranking; that is, riders are assigned to their heats in order, starting with the unranked or lowest ranked riders, and ending with the highest ranked riders in the last heat.

In such a case, within each heat, the start order continues to be in reverse order of ranking, so that the highest ranked rider within each heat goes last in that heat. Any unranked riders are seeded randomly in the first heats in the order.

In case of the first event in a series, the final ranking of the previous season of the series will be used.

Flatland Competitions

The start order in the Qualification phase is done at random, unless a series ranking is used; in that case, the start order of the Qualification phase is done in reverse order of the series ranking among the riders who are present. Unranked riders shall ride first, in random order.

(text modified on: 01.02.18)

**6bis.6.006** Within the Semi-final phase (if done), the start order is in reverse order of the results of the Qualification phase.

**6bis.6.007** Within the Final phase, the start order is in reverse order of the results of the preceding phase.

**6bis.6.008** Within each phase of the Competition, the riders in each heat are entitled to a warm-up before their heat begins.

Park Competitions: a minimum 40 second warm-up must be given.

Flatland Competitions: Within each phase, a 3-minute warm-up period will be allowed on the riding surface of the Flatland Area at most every 8 riders. The first such group of riders shall also be entitled to this 3-minute warm-up prior to starting the Competition.

(text modified on: 01.02.18)

**6bis.6.009** In the Semi-final (if held) and the Final, any rider who is not present within the Field Of Play (FOP) or the riders' area as described in the Competition Guide at latest by the start of the 15 minute warm-up period preceding that phase, shall not be allowed to start. They will be scored as DNS ("Did Not Start") for the phase in question.

**6bis.6.010** In case one or more riders do not start in a Semi-final or the Final for the reason of missing the deadline described in article 6bis.6.009, the heats shall be redrawn as described in article 6bis.6.003.

In case one or more riders withdraw (or are disqualified or refused their start) once the deadline described in article 6bis.6.009 has passed, the heats will not be changed.

#### Scoring and Results

##### **6bis.6.011** Park Competitions

Each judge shall give each rider a score of between 0.00 and 99.99, taking into account the rider's entire performance. The scores of individual judges are not given for each run.

In the Pre-Qualification (if held) and the qualification phase, scores given by all judges for each rider are averaged; this average score is the official score of the rider's performance over 2 runs for the heat in question. In the Semi-final and Final phase, scores given by all judges for each rider are averaged; the final score is the best score of the 2 runs during the Semi-final and Final phase.

Each average score is reported accurate to 2 decimal places; any fractions of points beyond this are dropped (no rounding of scores is done).

##### Flatland Competitions

Each judge shall give each rider a score of between 0.00 and 99.99, taking into account the rider's entire performance. The scores given by all judges for each rider are averaged; this average score is the official score of the rider's performance for the heat in question. The scores of individual judges are not given. Each average score is reported accurate to 2 decimal places; any fractions of points beyond this are dropped (no rounding of scores is done).

(text modified on: 01.02.18; 08.02.21)

#### Best Trick Competition

**6bis.6.012** The organiser of a BMX Freestyle Competition may decide to hold a best trick contest as part of a BMX Freestyle event. Such a Competition shall be held according to rules that the organiser may determine. Such rules must be explained in the Competition guide. Participation can never be mandatory.

(text modified on: 01.02.18)

#### Non-starters and Withdrawing from Competition

**6bis.6.013** Within each phase it is possible that one or more riders may not start, or withdraw from Competition.

In case a rider is refused his start for any reason or withdraws or simply does not show up before beginning their first run, he shall be scored as "Did Not Start" for

the phase in question. Such a rider is not eligible to transfer to the next phase of the Competition.

Should a rider withdraw after completing part of his first or second run, he shall be considered as having started in that phase of the Competition and will be scored on the portion of the run(s) that they were able to complete before withdrawing.

In case a rider registered for the Competition does not show up at the FOP for a Semi-final or Final within the time-lines identified in article 6bis.6.009, their DNS shall be converted to a disqualification unless the rider withdraws for an acceptable reason such as injury or an act of god beyond their control. It is the responsibility of the rider or their representative to contact the organisation and provide acceptable proof of this.

#### Results for Each Phase

**6bis.6.014** Within each phase, a result shall be established in order of the highest score to the lowest. Ties shall be broken according to article 6bis.6.015.

In the Qualification phase, results shall be reported at most 120 minutes after the Qualification phase is finished.

In the Semi-final, results shall be reported at most 30 minutes after the Semi-final is finished.

In the Final, results shall be reported at most 15 minutes after the Final is finished.

(text modified on: 01.02.18)

**6bis.6.015** In case of a tie, the judges shall discuss the performance of each rider concerned, and will decide which rider had the better performance before reporting the scores in question.

(text modified on: 01.02.18)

**6bis.6.016** Within the results established for each phase, riders who are scored as DNS ("Did Not Start") are put in last place for the phase in question.

In case of multiple DNS riders, they will be placed after the riders who started, in the order of their results in the previous phase.

In case one or more riders do not start in the Qualification phase, they shall automatically be considered as Disqualified (DSQ) and will not be ranked in the final results of the Competition.

## Competition Classification

**6bis.6.017** After the Final of a BMX Freestyle Competition is completed, a Competition classification accounting for the results of all phases of the event is produced as follows:

1. All riders not Disqualified (DSQ) who qualified for the Final, in order of their scores in the Final (from highest score to lowest). DNS riders in the Final as described in article 6bis.6.016
2. If it was held, all riders not Disqualified (DSQ) who qualified for the Semi-final but did not qualify for the Final, in order of their scores in the Semi-final (from highest score to lowest). DNS riders in the Semi-final as described in article 6bis.6.016
3. If it was held, all riders not Disqualified (DSQ) who started in the Qualification phase, in order of their scores in the Qualification phase, but who did not qualify for the next phase of the Competition.
4. If it was held, all riders not Disqualified (DSQ) who started in the Pre-Qualification phase, in order of their scores in the Pre-Qualification phase, but who did not qualify for the next phase of the Competition.

(text modified on: 02.02.19)

## Judging System

**6bis.6.018** A panel consisting of 3 to 6 judges (including a head judge) shall be appointed to each BMX Freestyle Competition. They shall independently evaluate the performance of each rider based upon the judging criteria.

**6bis.6.019** No scores shall be released as official until verified and approved by the Head Judge.

**6bis.6.020** No riders nor their family members, team representatives, members of the press, nor spectators should approach the judges stand or speak with the judges during the Competition or when calculating scores. A separate, access controlled area where the judges shall watch the Competition and perform their work shall be provided by the organiser.

(text modified on: 01.02.18)

**6bis.6.021** The judges shall operate from a position where they can witness the entire performance of each rider.

**6bis.6.022** Each judge must ensure of the discretion of their scoring. Judges must not communicate with any riders during Competition.

**6bis.6.023** The judges shall deliberate with each other before any score is published.

**6bis.6.024** After the Final, the judges shall remain at the Competition venue until the award ceremonies are concluded. Likewise, the judges shall remain at the Competition venue until 15 minutes after the list of results from each previous phase is published.

**6bis.6.025** The judges must act in a professional and impartial manner, and in doing so must put aside all preconceptions such as style preferences, or past performances. The performance of each rider during each run shall be judged entirely on its own merits.

Judges may not discuss their individual scores nor the scores given by other judges with anyone outside of the judges' panel, nor may they comment on the specific process by which the scores were assessed, nor ties broken.

(text modified on: 01.02.18)

**6bis.6.026** Judges may not independently change their scores either on the computer terminal or on the manual judging sheets. In case a mistake has been made, only the Head Judge can authorize a correction.

#### Judging Criteria

**6bis.6.027** In General

The overall composition of the runs is most important as the judges evaluate the sequences of tricks, the amount of risk in the routine, and how the rider uses the course. The judges take errors such as falls and stops into consideration as described in article 6bis.6.028.

#### Park Competitions

The performance of each rider is judged on overall impression including, but not limited to:

- a. Difficulty (refers to not only the tricks performed but also the placement of the tricks within the course and the combinations used)
- b. Height (amplitude of the tricks performed)
- c. Flow
- d. Originality (tricks and lines) and versatility
- e. Style
- f. Progression
- g. Variety of tricks (refers to a good mix of standard airs, rotations, grinds, ...)
- h. Risk factor
- i. Landings
- j. Use of the course
- k. Execution

#### Flatland Competitions

The performance of each rider is judged on overall impression, including but not limited to:

- a. Difficulty / risk
- b. Flow / style

- c. Originality (tricks and lines) and versatility
- d. Consistency (refers the stability, fluidity and control of manoeuvres performed)
- e. Variety of tricks
- f. Control of the tricks
- g. Bike control
- h. Execution

(text modified on: 01.02.18, 01.01.22)

**6bis.6.028** In General

Errors are defined as interruptions in a run or losses of control such as those listed below.

Each judge may deduct a number of points from a rider's score in case that rider commits one or more errors. The number of points deducted depends on the quantity and severity of the errors, and their overall impact on the rider's performance.

Park Errors

- a. Minor errors can include flat landings, deck landings, sliding, light foot touches and other instabilities;
- b. Medium errors can include stopping in full or heavy foot touches;
- c. Major errors can include actions such as "throwing away" the bicycle or crashing.

Flatland Errors

- a. Minor errors can include rear tire or front tire touching the riding surface during a trick (depending on the trick), a light foot touch, or handlebar touching the surface (assuming the trick continues);
- b. Medium errors can include landing the bicycle sideways or heavy foot touches;
- c. Major errors can include actions such as "throwing away" the bicycle, crashing, or touching the riding surface with both feet.

(text modified on: 01.02.18)

Procedure for Managing the Competition

**6bis.6.029** In General

The Commissaire appointed to manage the Competition is responsible for time-keeping.

Park Competitions

Within each heat, each rider shall do 2 runs. Each run will have a duration of one (1) minute.

### Flatland Competitions

Within each Phase, each rider shall do 1 run. Each run will have a duration of between 2 and 3 minutes; the duration of a run for each Phase of the Competition will be set in the Competition guide. In case of bad weather or an unusually high number of entries, the organiser can decide to reduce the duration of a run to the minimum prior to the start of the Phase in question.

(text modified on: 01.02.18)

### Starting a Run

#### **6bis.6.030** In General

Riders are responsible to follow the progress of the Competition and must be ready to begin their run at the point in time when their position in the start order arrives. Riders shall have 1 minute to begin their run from the point in time that they are informed that they may begin; at that point the time for that rider's run shall begin, whether they begin riding or not. In case the rider is not ready when the time for his run begins, he may nevertheless begin riding at any point before the time for his run ends.

### Park Competitions

Riders may begin their run from any position within the boundaries of the field of play, and must be ready in their chosen starting position prior to beginning their run.

The time for each run will be started when in the opinion of the Commissaire, the rider begins moving in case he starts on a flat surface, or drops in from an obstacle or higher level of the park. In this regard, the decision of the Commissaire responsible for time-keeping shall be final and may not be protested.

Any riding taking place outside the boundaries of the field of play shall not be considered by the judges. For avoidance of doubt, railings along the edge of the field of play shall be considered as part of the field of play.

### Flatland Competitions

Prior to beginning their run, the bicycle must be upright with both tires in contact with the riding surface. Riders must begin their run while on their bicycle, in a normal bicycle riding posture (that is, legs straddling the top tube with both hands on the handlebars and at least one foot on one of the pedals).

The time for each run will begin when in the opinion of the Commissaire, the rider begins the very first movement in the first trick. The decision of the Commissaire responsible for time-keeping shall be final and may not be protested.

At the point in time when the clock reaches 0 time, the judges shall begin their deliberation and ignore any additional movements of the rider in question.

(text modified on: 01.02.18, 02.02.19)

#### Finishing a Run

**6bis.6.031** A run ends when the time for the run has elapsed.

If a rider is stationary when the time runs out, nothing else will be scored.

#### Park Competitions

When the time runs out, any trick that is fully completed shall be counted. A completed trick is one in which both wheels are in contact with a flat (horizontal) part of the park surface.

#### Flatland Competitions

The judges shall not consider any trick which is not completed when the clock reaches 0 time.

(text modified on: 01.02.18, 01.01.22)

#### Time-out for Mechanical Problems, including Flat Tires

**6bis.6.032** During a run, if a rider's bicycle suffers any kind of a breakage or mechanical problem, including a flat tire, the rider has until the time elapses for his run to either fix the problem or to get another bicycle and / or continue riding. If the time for his run elapses before he continues riding, then his run shall be declared finished, and he shall not be allowed to start riding again.

Whether or not the rider is able to restart his run before the time elapses, the judges shall only consider any riding that was done within the time limit.

#### Park Competitions

For avoidance of doubt, the score awarded to a rider for a heat is determined based upon his performance in both runs during qualification, and the best run during Semi-final / Final, whether completed or not, within the heat in question.

(text modified on: 01.02.18)

#### Outside Interference

**6bis.6.033** The commissaire may decide to allow a rider to re-start a run in case of outside interference which, in the opinion of the Commissaire, has a visible impact on the rider's progress through the field of play, or on his performance. Such interference must be physical in nature such as debris blowing into the boundaries of the field of play and making physical contact with the rider, or coming in to his path causing him to alter his direction of travel, or lose control of his bicycle. For avoidance of doubt, background noise and weather conditions such as wind are not considered as outside inference. Likewise, the presence of other riders within that heat, or event staff normally allowed within the boundaries of the field of play shall not be considered as interference unless there is a

deliberate attempt or obviously careless movement which blocks the rider's progress.

In case the rider believes that he has been unfairly interfered with, he must immediately stop his run and complain to the Commissaire, who will review the situation and render a decision. In case the rider decides not to stop his run at that moment, no later complaint concerning interference shall be considered.

The Commissaire's decision is final and may not be appealed. In case a run is restarted, it shall be done after the end of the second run for all riders within the heat in question. In case the run to be re-started is the final run of a heat, then the rider concerned will be allowed a 2 minute rest break before re-starting the run in question.

**6bis.6.039** (Abrogated on 01.02.17)

#### Delays

**6bis.6.040** The Commissaire and the Technical Delegate (if appointed), together with the organiser, may decide based on their assessment of the riding conditions whether or not a weather time-out is necessary.

#### Park Competitions

If the Competition is stopped at any point during a heat, then the entire heat may be re-run once the Competition is started again. However, the results of any heats that have been fully run before the Competition was stopped shall stand; no such heats will be re-run.

If the Competition can't be later restarted, article 6bis.6.041 applies.

#### Flatland Competitions

In case of a weather delay, the contest shall be restarted at the point where it stopped. If the Competition can't be later restarted, article 6bis.6.041 applies.

(text modified on: 01.02.18, 01.01.22)

## Cancellation

**6bis.6.041** The Commissaire, together with the organiser, may decide based on their assessment of the riding conditions whether or not a Competition can be finished.

For whatever reason, in case a Competition can't be finished after it has started, the results of the last phase completed shall form the final result.

If the Competition is stopped before the Qualification phase is completed, there shall be no result; in this case, no prizes will be awarded.

## Chapter VII COMPETITION FACILITIES AND FIELD OF PLAY

### Park Competition Facilities

**6bis.7.001** As general principle, the field of play, or "park" in which BMX Freestyle Park Competitions take place is a facility composed of various ramps and obstacles that are designed and optimised to allow riders on BMX bicycles to compose runs through the park consisting of a number of tricks. It is understood that while the type and difficulty of the tricks that are possible depend on the creativity and skill of the rider, the format of the BMX Park also has a significant influence in that the size, shape, and spacing of the ramps and obstacles within the park provide the space and possibility to achieve the necessary altitude to make various types of tricks and styles of BMX riding possible. As such, a basic BMX Freestyle Park which is constructed for that purpose must be a minimum of 15 metres wide and 25 metres long. Also, neither the width nor the length of the park can be greater than 60 metres.

A safety zone of at least 2 metres must surround all sides of the stage on which the park is built, in areas where a rider or bicycle could be ejected from within it. No person other than accredited staff and riders entered in the Competition are permitted to stay in the safety zone.

To ensure safety, for edges of the park which do not consist of quarter pipes (normally the longer edges of a rectangular park), at least 2m of flat stage must separate the obstacles from the edge of the stage.

The park can be all at the same level (ground level), or spread across several different levels raised above the others. However, the base or ground area of each such level where the obstacles sit shall be flat and must be built of a material that is hard enough to allow the riders to preserve their momentum.

A safety barrier or equivalent fall protection is needed at any edge of a raised level which is also an outside edge of the park. This must be built in a way so as to not impair the full use of the park by the riders, nor put their safety at risk.

(text modified on: 02.02.19)

**6bis.7.002** The field of play must contain a minimum of 3 obstacles. An obstacle is any feature within the park which is raised above the level where it sits. This can include the walls of the park, if any.

Obstacles that have their base above ground level must be at least 2 metres wide; again, the 2 metres safety zone must be maintained. Such obstacles may also be connected as described above.

**6bis.7.003** Ramps, as well as the ground surface between them, must be built from a sufficiently hard and even surface which provides good traction for bicycle tires, such as wood or concrete; regardless of the materials used, such surfaces must not have any significant defects such as gaps, bumps, or holes.

**6bis.7.003bis**

The type of field of play that can be used for BMX Freestyle Park competitions, including the materials of which it can be made, depends on the level of contest that will be held.

Local, Regional, National, National Championships and International C1 Events

Existing facilities made of either wood or cement can be used. While it is preferred that such facilities are designed specifically for BMX, various public freestyle facilities such as bowls and skateboard parks can also be used. It is strongly recommended that where possible, such a field of play should incorporate at least 3 of the obstacles typically found in a BMX Freestyle Park as outlined in the UCI BMX Freestyle Park Guide.

Continental Championships

Beginning in 2021 and after, a facility specifically made for BMX riding must be used, whether built of wood or cement; such a field of play shall comply with the principles and guidelines outlined in the UCI BMX Freestyle Park Guide.

UCI BMX Freestyle Park World Cup Events, UCI BMX Freestyle Park World Championships, Multi-Sport Games including the Olympic Games

A field of play specifically constructed for BMX must be used and shall consist of wooden ramps. Such a field of play shall comply with the principles and guidelines outlined in the UCI BMX Freestyle Park Guide.

(Article introduced on: 02.02.19)

**6bis.7.004** A riders' area which can only be accessed by people with the necessary accreditation or riders who are registered in the Competition shall be provided next to the park.

**6bis.7.005** In general, the park and its surrounding infrastructure must be built in a way so that the safety of the riders is protected. In doing so, the park and safety zone,

including the edges of all obstacles, must be free of sharp edges. Likewise, no object that could present an impalement risk is allowed within these areas.

**6bis.7.006** The standards in articles 6bis.7.001 to 6bis.7.004 are required for BMX Park Competitions on the international calendar. For other events, they should be considered as guidelines.

(text modified on: 01.02.18)

#### Flatland Competition Facilities

**6bis.7.007** The Field of Play or “Flatland Area” in which BMX Flatland Competitions take place must be a minimum of 10 metres wide and 10 metres long to allow all styles of flatland riding. Neither the width nor the length of the Flatland Area can be greater than 25 metres.

A 1 metre safety zone shall separate the public from the edges of the Flatland Area.

The riding surface of the Flatland Area must be flat, and of solid construction without significant surface defects or obstructions, or anything which could reasonably cause an injury in case of a fall.

If the Flatland Area is painted, any paint used must be non-slip and should not reduce traction. The surface of the Flatland Area must provide good traction for the riders; materials which could be slippery (for example, glossy paint or carpet) must be avoided. In general, dark colours are strongly recommended to avoid glare.

The boundaries of the Flatland Area shall be visibly and clearly marked.

(article introduced on: 01.02.18)

**6bis.7.008** A riders’ area which can only be accessed by people with the necessary accreditation or riders who are registered in the Competition shall be provided next to the Flatland Area.

(article introduced on: 01.02.18)

**6bis.7.009** A warm-up area at least 6 metres wide and 6 metres long which is located close to the Flatland Area is recommended.

(article introduced on: 01.02.18)

**6bis.7.010** The standards in article 6bis.7.007 to 6bis.7.009 are required for BMX Flatland Competitions on the international calendar. For other events they shall be considered as guidelines.

(article introduced on: 01.02.18)

The organiser of the UCI BMX Freestyle World Cup may set special regulations for each UCI World Cup event, so long as those regulations do not conflict with the UCI BMX Freestyle regulations. Such special regulations will be defined in the Competition Guide.

The Competition specialties in the UCI BMX Freestyle World Cup may comprise Park Competitions, Flatland Competitions, or both.

(text modified on: 01.02.18)

Registration Conditions

**6bis.9.002** Registration in the Men Elite and Women Elite categories for the UCI BMX Freestyle World Cup shall be done by pre-registration only. Once the pre-registration deadline has passed, no further entries shall be accepted.

At registration, each rider or their representative must present a valid cycling licence as defined in Part 1 of the UCI regulations and a valid form of ID such as a passport or national ID card.

Exceptions:

- Riders ranked in the top 50 of the final UCI BMX Freestyle Park World Cup ranking of the season prior may enter if they do not presently have 50 or more points as of the ranking deadline for any particular event in the season following.
- In case a national federation does not presently have any riders with 50 or more points as of the ranking deadline for any particular event, that federation nevertheless has the right to enter a single rider for the category in question.

(text modified on: 02.02.19; 08.02.21)

**6bis.9.003** The registration deadlines are published in the Competition Guide and must be respected. Any entry received after the registration deadline is a late entry; the organisation may decide to charge a higher entry fee for such late entries. In any case, the last possibility to enter the event is the final deadline for riders' confirmation. No entry received after this will be accepted.

**6bis.9.004** The organisation reserves the right to determine the maximum number of participants. The maximum number of participants in each category will be defined in the Competition Guide. No further entries will be accepted once any such limit has been reached.

**6bis.9.008** (Abrogated on: 08.02.21)

## Competition Categories and Format

**6bis.9.009** For each Competition specialty, the UCI BMX Freestyle World Cup is contested by two categories – Men Elite 15+ and Women Elite 15+.

(text modified on: 01.02.18)

**6bis.9.010** Park Competitions

For Men Elite, the Park Competitions are organized as follows:

1. A Qualification phase, which must be completed by all riders. The riders with the best score from the Qualification phase will advance to the Semi-final. The number of riders who advance from the Qualification phase is at most 24.
2. A Semi-final phase with 24 riders, the 12 riders with the best score in the Semi-final phase advance to the Final
3. A Final phase, with 12 riders

In case 24 or fewer riders are entered and confirmed following riders' confirmation, then the system outlined in article 6bis.6.003 shall apply instead.

In case more than 80 entries are received, the organiser may decide to hold a Pre-Qualification phase. In this case, the number of riders who advance to the Qualification phase shall be defined in the Competition Guide for the event. In case a Pre-Qualification Phase is held, the Top 50 riders in the latest overall UCI BMX Freestyle Park Individual Ranking who registered at least 3 weeks in advance shall be directly entered in the Qualification Phase. Such riders registered later than 3 weeks in advance shall be required to ride in the Pre-Qualification Phase.

The number of riders advancing from the Pre-Qualification Phase shall be the difference between the number of riders in the Qualification Phase as defined by the organiser, and the number of riders who are entered directly in the Qualification Phase, as described above.

Riders who are required to do so who do not start in the Pre-Qualification phase are dealt with in the same manner as described for the Qualification phase in article 6bis.6.016. As such, the Pre-Qualification phase shall take the place of the Qualification phase for the purposes of article 6bis.6.016, except for those riders who bypass the Pre-Qualification phase.

For Women Elite, the same system shall apply as defined above for Men Elite.

(text modified on: 01.02.18, 02.02.19; 08.02.21)

**6bis.9.011** Flatland Competitions

For both Categories, the Flatland Competitions are organised in accordance with article 6bis.6.003.

(text modified on: 01.02.18)

## UCI BMX Freestyle World Cup Ranking

**6bis.9.012** For each Competition specialty, a ranking consisting of all events in the UCI BMX Freestyle World Cup series shall be drawn up for Men Elite and for Women Elite. In case the event is stopped and can't be resumed before the Pre-Qualification or Qualification phase is finished, then there shall be no result.
